HUDDING, SEPT. 1, 1838.

## LOCO FOCO CRED.

John Fairfield says, "That all petitions, memorials and papers touching the abolition of slavery, or the buying, selling or transferring of slaves in any State, District or Territory of the United States, be laid upon the table, without being debated printed, read or referred, and no further action what ever shall be had thereon."

## WHIG CRED.

Edward Kent says, "It seems to me that when Patriot's Resolution passed, a great right of the People was invaded, and an American privilege trodden down, and an arrogant and tyrannical attitude assumed by the Representatives of Free men, when they dared to say that they would not yield a respectful petition. The right of petition, as it was one of the first to be asserted, should be the last to be abandoned on American soil."

Abstract from the report of proceedings in Congress on Thursday, December 21, 1837

House of REPRESENTATIVES

"Mr. Patton, of Virginia, asked the consent of the House to offer a resolution

"Mr. Adams obj cted

"Mr. Patton moved a suspension of the rules to enable him to offer the resolution, and they were suspended accordingly

"Mr. Patton then offered the following resolution

"Resolved, That all petitions, memorials and papers touching the abolition of slavery, or the buying, selling or transferring of slaves in any State, District or territory of the United States, be laid upon the table without being debated, printed, read, or referred, and that no further action what ever shall be had thereon

The question being ordered on the adoption of the resolution, it was decided by yeas and nays in the affirmative. The vote of Maine stood as follows: in favor of the resolution, Anderson, Carter, Cilly, FAIRFIELD, opposed to it, Davis, Evans, Noyes, Smith.

When the name of the venerable John Quincy Adams was called, he arose, and amidst cries of order, said

"I hold the resolution to be a violation of the Constitution of the United States, of the right of my constituents, and the People of the United States to petition, and of my right to the freedom of speech as a member of this House."

THE CHARACTER OF NATHAN CLIFFORD AUTHENTICATED BY HIS OWN TESTIMONY, AS ALSO BY THE EVIDENCE OF MEN WHO HAVE HAD OPPORTUNITIES OF KNOWING HIM FROM PERSONAL OBSERVATION AND INTERCOLASCE

An extra has been issued from the office of the Steeple with the above caption, in which an exposition is made in letters from Nathan Clifford, Geo. W. Pierce, deceased and F. O. J. Smith. We give our readers a few extracts from the document, they disclose the manner in which Clifford managed to supplant Mr. Pierce, "a copy of a letter from G. W. Pierce, Esq., to F. O. J. S. 1838, dated August 1, 1838.

"Contrary to my expectations, and to yours, I say, Clifford is violating every pledge he gave, & to the Attorney General. He is breaking his recommendations from York, using his power as Speaker, in the appointment of commissioners to pledge the most inconsiderate men to election for him; and using every means in his power to carry the appointment by storm. Is this fair? Can we stand if such gross violations of honorable understandings between members of the party are sanctioned? You know that to obtain those recommendations was a violation of his pledge to me. You know, too, that he was if he did obtain them, to make no use of them without my consent. His conduct is so entirely unprincipled, that I dread the consequences of an association with that man."

Copy of a Letter from Mr. Clifford to Mr. F. O. J. S. 1838, dated August 1, 1838.

"Friend Smith, George and I have agreed to submit our question to the Governor to propose a new & re-arranged, but let him do as he pleases, without bringing our friends into collision. What will he do? You, must advise him, though not at my request. I am worried, Frank, for God's sake, help me, or I am ruined. Yours till death

NATHAN CLIFFORD

Extract from a letter from Mr. Pierce to Mr. Smith, dated March 12, 1838, after Mr. Clifford had succeeded to the office of Attorney General

"But to my friends I do say, I have not been fairly dealt with. Clifford has acted in a manner that must forever destroy my confidence in the *as*. Hence, I must step out of the party and personal correspondence of which he is a member.

You will not wonder, therefore, that I propose to step out of the party, & into whom I believe to be a better & wiser *as*.

But the injustice of one man will not make me for a day to the party. Clifford may regard Clifford's conduct in a different light; but this is all I can say. I do not have any confidence in that *as* again. He would sacrifice you, me, the party for his own advancement

## Farmers of Maine.

Look at the policy of the present Adminstration regarding the Public Lands, and compare it with that of former times. Look at the large Territory now laying useless, which the hand of Industry cannot touch. Laying in the hands of purchasers who either cannot or will not sell at such a price that a hard working Farmer can afford to purchase.

Change the Administration of the State, and you change this policy also, and instead of laying the Public Domain thrown open to the strong hands and firm hearts of the Yeomanry you shut it up altogether, or what is worse, sell to reckless purchasers, for promises to pay, which will never be fulfilled, and thus the value of the Land cannot be realized to the State, or to any one, until many years be past, and with a loss of hundreds of the Young men of the State, who seek a more liberal policy in other parts of the Country. Under the Law of last Winter the Territory upon the Aroostook River is open to all who choose to go, and all that is wanting to make one independent is a few years of patient industry.

The Whigs have steadily contended since 1830, for the present Land Law. EDWARD KENT, the present Governor was a member of the Legislature of 1830, and spoke in opposition to the policy of the then dominant party in the following language:

"When, Sir, as a legislator of the State of Maine, I cast my eye over these unpeopled forests ready for the axe of the pioneer of civilization, I cannot bring myself to the cool calculation of their market value, and rest contented if they sell well to my opinion, sir, the first great object which we should have in view in all our legislation, is the settlement of those lands. The great point to attend all our acts should tend to present inducements to the hardy yeomanry to our land to migrate to these sections, so that in a few years the desert may become a fruitful field, and where now stands the native unshaded forest our eyes may be blessed with the sight of a free, enterprising, industrious yankee population, with their churches and school houses."

I deplore the policy, Sir, which regards these lands as an appendage to the Treasury department—which views them only as a source of revenue, which is willing to sell them in large tracts to individual speculators, if a few dollars can thereby be placed in our coffers, although by these very sacrifices (I will not call them sales) the settlement will be retarded for years, and the suffering tenants may mourn in dust and ashes the hard-hearted policy which has not merely themselves but their towns under the control of an absent landlord.

Such was the policy of Edward Kent nine years ago, and had his advice been taken then who can calculate the benefits this State would have derived from it. We can judge only from the past, and it is a source of deep regret that this truly Republican plan had not been adopted at that time. It shows that the present Governor is a man who truly understands the interest of the State, and that it is not, as his enemies assert, a merely temporary policy, got up for base purposes, but the settled policy of a mature judgment, founded upon actual knowledge of the situation of the Public Lands.

The pure flame of LIBERTY still burns with undiminished brightness, and the Whig Sons of Maine will show the Tory Traitors that the nomination and election of Governor of this State is not done in Washington.

Let our watchword be, no more Sub-Treasury no more Power granted to an Administration which shows so great a disregard to the wants of the People, and which abuses, to such an extent, the Power it already possesses.

## THE TRUE ISSUE !!

Shall ours be a Government of OFFICE HOLDERS, or a Government of the PEOPLE? Shall we have a CONSTITUTIONAL CURRENCY, redeemable in GOLD and SILVER, or one of SHIN PLASTERS and TREASURY NOTES? Shall we bend the suppliant knee to the FEDERALISM of the SOUTH, or shall we hold fast to the RIGHT of PETITION? Shall we live under the despotism of LOCOFOCISM, or under the Safeguards of a FREE CONSTITUTION?

## FEDERAL LOVE FOR THE PEOPLE.

Gov. Kent's administration paid off the Wheat Bounty in State scrip, redeemable in 1839. The Farmers sold this scrip to the brokers, generally at a DISCOUNT of 12 per cent. It is now in the hands of the brokers, than the Treasurer comes forward, and offers to REDEEM IT! By this operation the FARMERS are shaved out of 12 per cent of their wheat bounty, for the benefit OF THE BROKERS AND NOTE SHAVERS. This is an admirable specimen of Federal management for the benefit of the "dear people." [Argus.]

We find the above extract in the weekly Argus of Tuesday. Will it be believed that the Argus has never published the advertisement of the Treasurer, although it is the State paper, and all the papers in the State are requested to publish it? That advertisement would show its readers that the Treasurer is not ready to pay the "brokers and note shavers" who have bought the scrip, but those towns which have not sold it. If any towns have sold this scrip at a discount of 12 per cent, they have managed very badly. The greatest discount we have heard of, except in a single instance, has been 3 per cent. Generally it has been sold at from 1 to 3 in the Counties of York and Cumberland, where the principal circulation of the Argus is, not more than one fourth of the scrip has been sold, as appears by returns of towns to the Treasurer. The money is now ready, as will be seen by the advertisement of the Treasurer, which we here insert, but which the Argus refused to publish!

## GOV. KENT'S LETTER TO THE

President of the United States,

WHICH THE LOCO FOCO REPUBLIC SUPPOSES AND REFUSES TO

PUBLISH !!

The Voice of the People says, "It is a remarkable fact that although nearly all the Van Buren papers in this State have censured Governor Kent for his Letter to the President on the North-Eastern Boundary, not one of them has published it, but they have all carefully omitted it from among the other documents with which it was in connection, and which documents they have published. Such conduct is inexplicable mean."

The Appeal and Age, in commenting on the above extract, have the following, "We, that is, the locofoco's are sick and tired of this eternal ding-dong about Kent's Letter"!! Very like, the young masters of the Age may be SICK and will be WORSE after Monday next, and the PEOPLE, we think, are TIRED of the time serving and shuffling policy which the late locofoco State Administrations have pursued in relation to the BOUNDARY LINE. Why not publish GOVERNOR KENT'S LETTER? - Why not come out manfully and shew the PEOPLE how he has INSISTED on our RIGHTS? Is it because you are afraid to trust knowledge in their hands? Shew them Gov. Kent's PROMPT and ENERGETIC course, and they will sustain him in RUNNING the line, as they WILL at the BALLOT-BOX on MONDAY NEXT.

[For the Whig & Courier]

"Eternal vigilance is the price of liberty."

This, fellow citizens, is a text which ought to be kept in mind, and perseveringly acted upon by every citizen of a republic. It will not do for us to be satisfied with the enthusiasm excited and manifested by the assembling of large Conventions, but we must carry this enthusiasm home with us, we must cherish it in our breast, we must act under its influence, not only at Conventions, at caucuses, at smaller meetings, but with one another when only two or three are gathered together, nay, when alone and cowering with ourselves, reflecting on our individual duties as citizens of a Republic. Never was there a time when the execuse of this vigilance was more impudently called for than at present, never was there a time since the establishment of our Republic, that the action of the citizens of a State, was looked upon with such intense interest, as that of this State in reference to the approaching election. And why is it so? Why is it that all men of all parties are looking with anxious solicitude to this contest? Why is it that all are buckling on their armor, and bracing themselves for the battle? On the one hand we see a set of men in power, who have already paralysed the energies of the people, and which, if carried out, will inevitably revolutionize and overturn the whole system of our Republic in institutions.

It has been avowed by a prominent man in the Van Buren ranks, that with the Subtreasury the party sink or swim! Their great stake is pledged on this throw, and to accomplish this any and all measures will be adopted. Power of every kind will be exerted, from the Leviathan of Government pronig and favor to the wily lurking serpent, who, in the form of the lowest minion of executive power, infuses the deadly poison of deceit and falsehood into the ears of the unsuspecting and uninformed.

And why all this anxiety on the part of the administration to effect this cherished object? The answer to the question, fellow citizens, is full of interest to every friend of our political institutions. The effect of the establishment of the Sub Treasury System, would be virtually to place in the hands of one man, the whole money power of the Country. Establish this system, and you place at the control of the President of the United States, the military, naval and money power of the country, you unite in his hands the purse and the sword. What man is there who could resist the temptation presented by the possession of such power? certainly not Martin Van Buren, and as yet the world has produced but one Washington.

It is vain and idle to talk about guarding the Revenues of the Country, in the hands of Commissioners, Collectors and minor Agents, by heavy bonds and legal enactments, bonds and enactments in regulating and controlling the locomotive sub-treasurers; and can it be believed that human invention will find means to legitimate men into moral honesty? It has been assumed as an axiom, by shrewd and designing politicians, "that every man has his price," and among the one or two hundred thousand Sub-Treasurers, who would be created under the establishment of this system, appointed by the authorities and under the direction of a designing individual, it is to be feared that few would resist the temptation presented in the possession of money in large sums. The man to whom the possession of a big dollar bill has been esteemed a treasure will be sorely tempted by the possession of five hundred dollars in his official capacity, and if instead of five hundred one has twenty times that amount, the history of the past tells us that some have not been able to resist. Another truism is that "man is governed by his interest," and the same history tells us that some at least among the Sub-Treasurers have been led (at the Nubiles of the South did relative to the Union) to "calculate the value" of character, and have come to the conclusion to barter it away for gold. Having in their possession vast sums belonging to the people, they have paid over to their bondsmen the amount of their habitudes, citizenship and a throne for the balance of the people's money in their hands.

Is it not apparent then that the power thus placed in the hands of one man, may be, and there is reason to fear will be, abused for the purposes of self-aggrandisement?

It may be said that these Sub-treasurers, are not appointed by the President, that they are the appointees of the several departments; that those departments are independent of him. But who appoints the heads of departments, why the President, with the advice and consent of the Senate. Who appoints these heads of departments, the President or his high officials?

Further the Congress of Washington, on Calais.

Further the Congress of Franklin, on Wiscasset.

It is a bold step from a simple ad. of the government to a simple govt. at all. And that is it. Now, therefore, the simple govt. of the government ONE MAN, a Despot! Are you there, Mr. Van Buren? Is it thus you wish to "tread in the footsteps of your predecessors?" Do you find republican institutions, with all their drawbacks of power, their checks and balances, too complex for your purposes? are you wearied with the exercise of those magic powers for which you are most notorious? May the "Dixie" of Maine on the 10th of Sept. member be found in successful opposition to the "Hedge" Martin Van Buren.

I say, fellow citizens, that on the one side we see a set of men in power who are pledged to a set of measures which have already paralyzed the energies of a whole people, and which, if carried out will inevitably revolutionize and overturn the whole system of our republican institutions. And on the other a people governed by the portentous signs of the times to an impeded sense of their danger; a sense confused by the glimpse of the gloomy & foot occasionally darted in the treacherous designs of those in power, and the artful insinuations, deceitful misrepresentations of their minions. On one hand are the office holders and ex-office holders, striving with every art and by every means

DR. BRADRETH'S GENUINE PILLS  
Doctor Sangrado's system still  
Lives in the world, to kill, to kill!

THIS system does indeed live still and is practiced by the very men who laugh at Doctor Sangrado as a visionary fool. The immediate Faculty! Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid stagnant and corrupt humors in the body by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take Bradreth's Pills concocted forth.

From the pure products of the earth, they own no after-taste.

They often save, but never destroy!

BLEEDING ALWAYS IMPROPER.  
For the life of the flesh in the blood," Lewis' chapter xxi v. 17. When the properties of BRADRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated bleeding will no longer be thought of as a remedy for diseases for in violent inflammations eight or ten of them will take in the course of two or three hours, more of the impure humors from the body by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done, and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of inflammation, whereas bleeding removes the essential parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a dose of this medicine, the body is indeed lightened of a load. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind which 84 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is it tremulous, showing nervous excitements? the Pills, by soothing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times a year, and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and having a vein opened, they have swallowed six or eight Pills, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible people, simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure by the use of Bradreth's Pills, alone, are submitted with respect, to the unprejudiced portion of the Boston public.

ASTHMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct, deserves, by all persons, a careful perusal. The most prejudiced must own that evidence is on the side of these Pills which, by the cure, are daily making show there is no necessity for any other medicine.

This is to certify that Thomas S. Brown of Greenwich, Ct. was taken with a cold, numb feeling on the 13th of June last. He began to cough and raise phlegm and in the course of twenty four hours about two quarts of thick white jelly was expectorated. Three physicians in Stamford Greenwich and New Haven, pronounced it a nervous humoral spasmotic Asthma and after prescribing for some time to no effect, the three consulted together, and finally declared that they could do him no good, it would and must result in consumption and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Bradreth's Vegetable Universal Pills and immediately sent by Capt. J. Warren of Greenwich for a box, and found relief in the course of a few days which encouraged him to persevere, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in consequence of taking the above Pills, which we have also used in our families, and have found them valuable.

Tuckup, Stephen Waring, John Lumsden, Certificate of John Goulden, who has known above pills for forty years.

Dr. Kingley certifies that I have known Bradreth's Vegetable Universal Pill for upwards of forty years, they were used by my family connections, in the county of Dorset, England, since the year 1778, many of whom they cured of old standing complaints.

"Certificate of cure of CHOLICS, PILLS, &c &c From BOSTONIAN, whose address is at the foot of [true copy.]

JOHN LUMMUS,  
17 Sudbury street.

My dear Sir, I write a few lines to inform you that I have been making use of your Vegetable Universal Pill. I have been affected with a complaint supposed to be caused by PAINT. I was subject to great coldness through my whole system, attended with frequent pain and severe choleras; for the year I have also been subject to this, which would seize me in the night and when I have come to myself, I have been as weak as a child. I am ready to state the facts, are particularly, and how the medicine acted upon me, at my residence No 17 Sudbury street, to any one who wishes to inquire.

I feel the medicine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful. Your, & all my thanks to you.

Believe me to remain,  
Very truly yours,
